Experience

DataChat - Dashboard

Madison, WI

SOFTWARE ENGINEER - REACT, REDUX

June 2019 - PRESENT

- Developed a dashboard for monitoring data in Business Intelligence and Business Analytics contexts.
- Leveraged third party APIs and Python scripts to automate data collection pipeline.
- Managed dashboard CRUD functions through Go routes and database operations in PostgreSQL.
- Drafted client/server architecture user flow.
- Designed user interface for dashboard selection menu and dashboard display.
- Led a team of engineers to deliver onboarding software for a fluid new user experience.
- Initiate, maintain, and groom customer rapport for continuous feedback collection.

DataChat - Messenger

Madison, WI

SOFTWARE ENGINEER

Jan 2019 - June 2019

- Developed a web messenger that uses a natural language chat interface for data analytics.
- Incorporated React-Redux container and Redux selector patterns to architect highly scalable front-end state management that enabled access to messages, charts, and user information.
- Applied Redux-Saga middleware to organize asynchronous logic, reducing mental overload
- Constructed component library for internal brand use.
- Integrated Leaflet.js with geomapping to display listings on map.
- Implemented responsive charts using Plotly.js to present data findings.

DataChat

Madison, WI

SOFTWARE ENGINEER INTERN

May 2018 - Dec 2018

- Improved application usability by redesigning UI.
- Embellish application by tuning cursor and transition effects.
- Enabled file upload and deletion by developing a file manager in React and Go.
- Engineered an end-to-end test automation framework using Jest and Cypress based on Unit Testing, Regression Testing and Behavior Driven Development (BDD).

Aquatic Sciences Center

Madison, WI

WEB DEVELOPER

Oct 2017 - Apr 2018

- Implemented modern designs for the University of Wisconsin Sea Grant Institute website WordPress using UW Theme.

Projects

Portfolio Website

marktoh.github.io/info

WEB DEVELOPER

- Designed a responsive portfolio website from scratch using **Bootstrap** to showcase personal interests.
