# **Mark Toh**

Software Engineer, Full Stack

## Experience \_

**DataChat**Madison, WI

SOFTWARE ENGINEER, FRONT-END LEAD

Jan 2019 - PRESENT

May 2018 - Dec 2018

- Architectured a dashboard suite in **React**, **Golang**, and **Python** to create, update, delete, and share live visualizations.
- Constructed a data pipeline for consolidating data from third-party APIs such as Google Analytics, Squarespace, and Active Campaign using DataChat engine and **Python**.
- Engineered an end-to-end test automation framework using **Jest** and **Cypress** based on Unit Testing, Regression Testing and Behavior Driven Development (BDD) to reduce software development cycle time.
- Led 5 engineers to develop a chat application, establish UI/UX principles, construct a **React** component library, and deliver features such as a file manager, and an onboarding system.
- Managed client and project expectations by standardizing code quality, breaking down issues into milestones, and providing detailed code reviews on **Github** to satisfy technical requirements.

**DataChat** Madison, WI

SOFTWARE ENGINEER INTERN

• Redesigned UI of web application using **React** and **SCSS**.

• Implemented a file manager in **React** coupled with **Restful APIs** for uploading and deleting files in **Go**.

Aquatic Sciences Center Madison, WI

Web Developer Oct 2017 - Apr 2018

• Implemented modern designs for the University of Wisconsin Sea Grant Institute website based on UW Theme on WordPress.

Projects \_

Portfolio Website marktoh.github.io

Web Developer January 2020

- Designed a responsive portfolio website from scratch using **React** and **SCSS**.
- Showcased creativity and design skills in implementing a clean and modern user interface.

 Open Formula 1
 marktoh.github.io/open-f1

Web Developer December 2019

- Developed a web application for tracking circuits across Formula 1 seasons.
- Mapped locations of 1400 circuits since 1950 using a Formula One API, React, and Leaflet mapping library.
- Exhibited extreme attention to detail in designing the layout and visual hierarchy.

# **gALPHA Startup Incubator**

PRODUCT MANAGER June 2018

- Led the development of a mobile app that provides mural information in Black Cat Alley using Augmented Reality.
- Delivered a successful sales pitch to a crowd of 100 attendees.
